PRESIDENT STILL IN BED

Doctor Says Condition Improves
Very Slowly

(By United Press.)

Washington, Oct. 8.—"The president's condition continues to improve slowly," said a statement issued at noon today by Dr. Grayson. The doctor expressed satisfaction with the president's progress. The improvement is not regarded unfavorable but it is feared that a sudden reaction probably would occur. The doctors are perplexed with the problem in enforcing the rest cure without irritating the president, it was stated, since he is continually thinking of the things he should do. The president remains propped up in bed during the day.

WILL ORGANIZE HERE TOMORROW

All Townships in Rush County Are
Now Ready to Perfect a County
Organization

TWO MEETINGS TOMORROW

County Organization Will Then Affili-
ate With State Body—Meet-
ings Held Last Night

Several townships in Rush county held meetings last night to complete their organization body, which in turn will affiliate with the State Farmers' Association. These meetings last night were held in Walker, Union, Jackson and Rushville townships, each township completing their part of the organization, by selecting a chairman and a secretary.

At these meetings representatives were chosen to attend the meeting here this afternoon, for the purpose of preparing a constitution and by-laws for the county organization. The meeting this afternoon was held in the sheriff's office and they were busy getting the by-laws ready to be presented at the county meeting which will be held here tomorrow.

Will L. Brown was elected permanent chairman for Rushville township at the meeting held here last night, and John Davis was elected secretary. In Walker township, the meeting was attended by about 100 farmers, and the Christian church in Homer was well filled with people who were interested in an organized body of farmers.

The meeting here tomorrow is for the purpose of perfecting a county organization, which will affiliate with the state association. Meetings will be held here tomorrow, both in the afternoon and at night.

It was learned this morning that William Bosson, state treasurer for the \$200,000 fund, will be here and will be one of the important speakers, as will be C. F. Patterson, a farmer of Tipton county. Mr. Patterson has made several speeches in the county, and is well known among the farmers, as being a very able speaker.

Belgium King and Queen Stop in
Midst of Wheat Belt

(By United Press.)

Aboard King Albert's Train, Omaha, Neb., Oct. 8.—"While entering the great agriculture center of this great country the queen and I as well as other Belgians, will remember that it was from this wheat belt that came the first offer of food stuff to the stricken Belgians, King Albert said on arrival of the royal party in Omaha. He expressed a desire to see the live stock market and other industries of the city.

BUYS MACHINERY FOR LIGHT PLANT

City Council Lets Contract For New
Equipment to Chuse Engine and
Manufacturing Co.

NEW ADDITION IS STARTED

Council Hopes to Have it Installed
In Time to Relieve Strain Dur-
ing The Holidays

The city council which met in regular session last night, allowed the contract for the new equipment for the electric light plant, to the Chuse Engine and Manufacturing Company of Mattoon, Ill., their bid being \$18,657.

The council received bids for the equipment on September 25, at which time five bidders were present. The council at that time did not want to jump at one bid too quickly, so have investigated the various proposition for the two weeks. At the meeting last night several representatives were on hand, and answered questions concerning their machinery.

Work has been started on enlarging the plant, and a new part will be added at the east end of the present structure. The outfit which the council bought last night, is now in stock at Mattoon, and is crated ready for shipment.

The council would like very much to have the new machinery installed before the middle of December, so as to relieve the strain during the Christmas season.

The mayor's report for the quarter ending September 30, showed that \$110 had been collected by him in docket fees and turned over to the city treasurer, and that he had received during the three month's period prior to September 30, \$155 in fines, which had also been given to the city treasurer.

Some of the factories in the northwestern part of Rushville seemed to object to the street commissioner not opening up the new concrete bridge in Ninth street, near the city park. The bridge was just put in last week, and the council decided that it would be unwise to allow heavy log wagons to go over the bridge too soon, so they placed the date as October 18, as the time the street commissioner could open it.

The matter of purchasing a side car for the police motorcycle was taken up, and after a short discussion it was decided to buy one, and the council left the matter in the hands of the police committee, with power to act.

At Eleventh and Main streets, a jog in the street is to be reduced, by moving the curb stone in 11th street to conform with the rest of the curb. At the intersection of these two streets, there is a bad turn, and without much trouble the street commissioner can move the curb two or three feet, which will line Eleventh street up with Main, a little better, and then reduce the abrupt turn.

The council also discussed the advisability of allowing Horatio S. Continued on Page Eight

ONE PLANE IS WRECKED

Trans-Continental Flyer Probably
Fatally Injured

(By United Press.)

Binghamton, N. Y., Oct. 8.—Col. Alfred Brandt driving plane No. 4 in the trans-continental flight, crashed to the ground one mile north of Deposit this morning. Col. Brandt when found had both arms and both legs broken, was unconscious and apparently dying.

Sergt. Newitt, passenger, was injured. The plane was wrecked.

ASKED TO WATCH FOR W.S.S.

Reported That Counterfeits Are in
Circulation in Indiana

Postmaster G. P. Hunt has received a notice from the secret service agent in Indiana, Thomas E. Halls, asking him to be on the lookout for counterfeit War Savings stamps, which have been reported to be in circulation. According to the word received here the imitation stamps are of the 1919 issue, and are photographic productions of good blue color, but the fine lines behind the portrait are in solid colors. Local postoffice officials cannot see how anyone hopes to gain by the counterfeits because the War Savings stamps are not transferable and the persons who wish to cash them must wait ten days after notice, before the transaction can be made.

HUSBAND CALLED HER A FOOL; ASK DIVORCE

Alleging Cruel and Inhuman Treat-
ment, Mrs. Jessie Richardson,
Brings Suit For Divorce

WEAVER ASKS NEW TRIAL

A divorce was filed this morning in circuit court by Jessie L. Richardson against William D. Richardson. Mrs. Richardson alleging cruel and inhuman treatment, in that her husband was cross, sullen and was bad tempered toward her. She also alleges that he cursed her, called her a fool, an idiot and that she had no sense.

Mrs. Richardson states that they were married February 7th, 1912, and separated October 7th, 1919. She lives in Noble township, 2 1/2 miles west of Glenwood.

The Creamery Package Manufacturing Company which was awarded judgment a few weeks ago in the court here against Levi B. Weaver, this morning had a new suit filed against them, Mr. Weaver filing a motion for a new trial. No disposition was made of the motion today, as Judge Sparks was in Indianapolis today on business.

FLIGHT ACROSS U. S. GETS STARTED TODAY

Greatest Aerial Race in History Be-
gins With 71 Planes Making
a Good Start

LEAVE FROM BOTH ENDS

(By United Press.)

New York, Oct. 8.—The greatest aerial race in history began at 9:15 today when 71 airplanes started to take off on a trans-continental flight between New York and San Francisco.

Sixty-five of the machines were scheduled to leave Mineola and the remainder were to start from San Francisco. All of the planes have tested more than 100 miles an hour.

The race across the continent of 5,400 miles is expected to require 12 days.

Twenty-one patrol stations are on the route, where each plane will stop thirty minutes. There will be no night flying.

Earl H. Payne is Appointed County
Chairman For Roosevelt Mem-
orial Fund

TOWNSHIPS HEADS SELECTED

Will be Notified of Appointment
From State Headquarters—
Pastors to Aid Sunday

Earl H. Payne has been appointed county chairman for the Roosevelt Memorial campaign which will be conducted the week of October 20. The county has been organized and the township chairmen will be notified from Indianapolis headquarters.

There is not believed to be any doubt but that Rush county can make its share of the \$200,000 quota for the state, because Roosevelt admirers of all parties will be ready to help in erecting a memorial to the former president, led the fight for Americanism all during the war.

Through the church committee of the state association, every pastor in the state asked, personally, to set aside a portion of the morning hours of Sunday October 19th, for an Americanization program. The Rev. Morton C. Pearson, President of the State Federation of Churches, has just issued a circular letter to the ministers, declaring, among other things that "it would be fitting also that in the Sunday schools of Indiana a program should be given which will illustrate the virtues of this great American (Roosevelt)."

Americanization Sunday will be the opening of a special week devoted to patriotic effort on the part of the Roosevelt Memorial Association. On Friday, October 14th, Americanization Day will be observed in the schools. Appropriate programs have been suggested to the school officials of the State by State Superintendent of Public Instruction L. N. Hines and Ellis C. Graff, Superintendent of the Indianapolis Continued on Page Two

FINED FOR PASSING STANDING SCHOOL HACK

Aaron Harold, Son of Mr. and Mrs.
Alva Harold, Pays \$1 and Costs
For Violating State Law

ANOTHER BOY IS ARRESTED

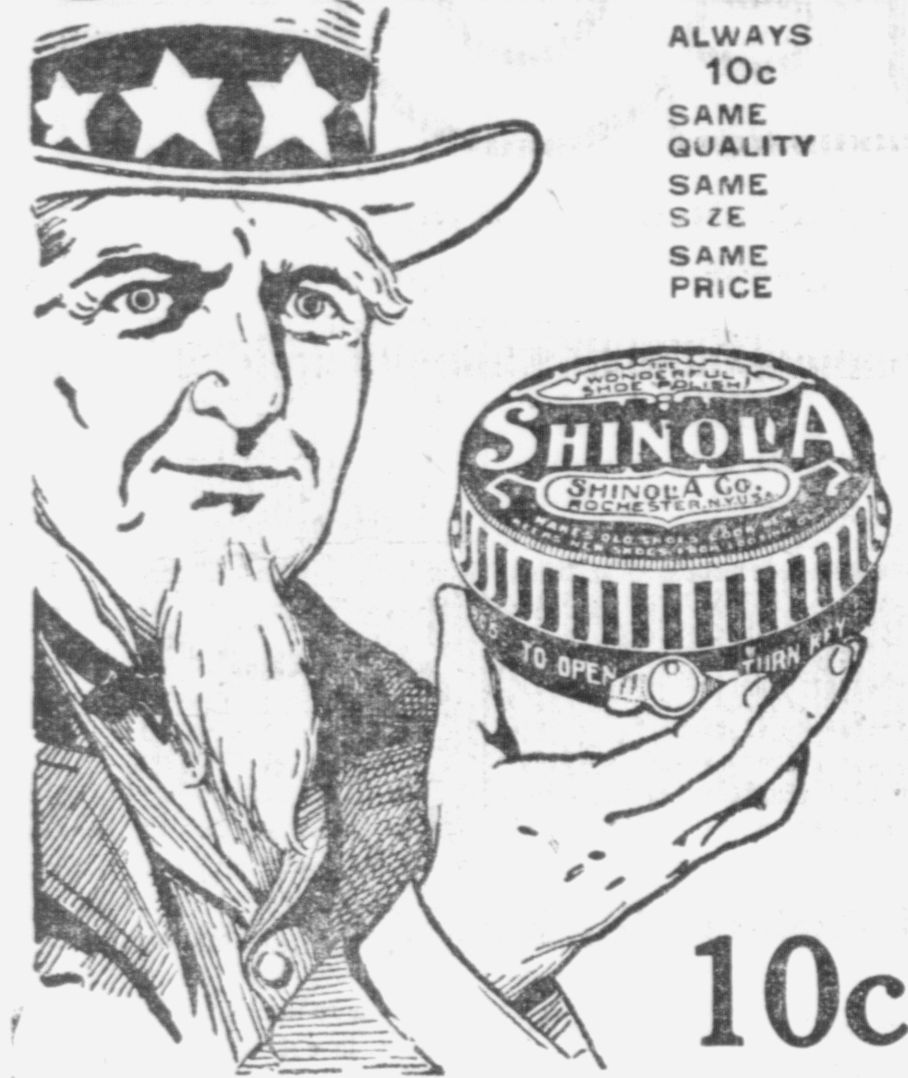

Aaron Harold, son of Mr. and Mrs. Alva Harold, living a short distance west of the city, was fined one dollar and costs, amounting in all to \$12, by Squire J. P. Stech, this morning, when he pleaded guilty to a charge of violating the state law prohibiting the passing of school hacks, while they are taking on or discharging school children.

The alleged offense took place last Friday afternoon in front of the Circleville school house. The hack was standing in front of the building and children were taking their places in it, preparatory to going home. The Harold boy, it is alleged, and another boy, who was racing with their machines, passed the hack at a high rate of speed. The other boy was to appear before Squire Stech at four o'clock this afternoon and it was expected that he would plead guilty.

J. P. Young, Rushville township trustee, and other school officials of the county, have repeatedly warned automobile drivers about this law, and have said that if violations continued, arrests would be made. The lives of school children are endangered almost daily by machines passing standing hacks, and school officials are determined to break up the practice.

Let Your Hogs Choose

If you give your hogs a chance to choose among different feeds, you will find that they go for Swift's Digestor Tankage first. They crave for protein. They need it.

Poor pastures are handicapping your hog production. If you want the best results, you must supply protein elsewhere.

60 per cent tankage, though a little higher per 100 pounds, is much cheaper than other protein hog feeds in the long run because of the large proportion of protein it contains.

Of all 60 per cent tankages you will find Swift's superior.

Why?

Because every bit of that 60 per cent is available.

Because the filler is made of valuable rations such as fat and phosphates.

Because the hogs themselves prefer it.

schools. It is believed that the occasion will be observed by all public, private and parochial schools.

The Rev. Pearson, referring to the plans of the Association informs the pastors of the State that the Roosevelt Memorial Association, which organization seeks to raise a fund for the erection of suitable memorials in memory of Theodore Roosevelt, calls upon you through our Church Committee, to set apart the Sunday morning hours of October 19th for the holding of a service in memory of Mr. Roosevelt at which time you may set forth the outstanding doctrines of Americanism, as illustrated in the life and service of Mr. Roosevelt. It is to be known as Americanization Sunday, and the week following as Americanization week. The ministers of all denominations without regard to creed are being petitioned to observe this day and it is our hope that on that day every pulpit in Indiana will ring forth the appeal for real intense Americanism as a safeguard during this period of unrest.

The ideals of Roosevelt which include his love of country, his fidelity to wife, home, friends and principals of justice and honor furnish fine illustration and inspiration for the celebration of Americanization Sunday.

Had to Lay Off Month At Time

Petersen Spent \$500 For Medicines That Did Him No Good—Restored by Tanlac.

"I have spent over five hundred dollars for medicine during the past five years, and Tanlac is the only thing that has done me any good at all," said P. E. Petersen, a well known fireman who is employed at the Milwaukee Novelty Dye Works, and who lives at 1557 Third street, Milwaukee, the other day.

"I had about made all arrangements to be operated on," continued Mr. Petersen, "and after reading so much about Tanlac, I decided to postpone the operation and give this medicine a trial. I had suffered so long from stomach trouble without getting any relief, that I was finally told that an operation was the only thing left. I had reached the point where I would have terrible cramping spells in less than thirty minutes after every meal. I would often almost lose my breath on account of gas forming so bad, and the misery I suffered from headaches will never be known to anybody except myself. This trouble just gradually got worse all the time until I got to where I couldn't retain anything I ate—not even a glass of milk. I never slept well, in fact, there were many nights when I just had to walk the floor all night long and not sleep a wink. I was so nervous at times that I couldn't stand to have anybody talk to me. I finally got to where I could hardly get about, and would be laid up for a month at a time.

"Well, as I have already said, I took Tanlac as a last resort before submitting to an operation, and I am mighty glad I did, for it overcame my troubles, and I am now a sound, well man again without having to go under the knife. You may believe it or not, but it's the truth if I ever told it. I haven't had a pain of any kind since I finished my first bottle of Tanlac, and I can sit down now and eat a big, square meal and it never causes me the least bit of trouble afterward. I have gained ten pounds already and am back at my work and never lose a minute's time. A hard day's work doesn't hurt me, either, for I just hustle home and wash up and eat as hearty a supper as anybody, and go to bed and stretch out and sleep like a school boy all night long. Those headaches and smothering spells have left me, too, and in fact, I am in a fine condition in every way, and I tell the world that Tanlac is responsible for it all."

Tanlac is sold in Rushville by F. B. Johnson & Co.; in Milroy by Dale's Copper; in Manila by Geo. J. Inlow, and Arlington by Mrs. L. T. Davis. (Adv.)

CONDEMN SUNDAY BUSINESS

(By United Press.)

Muncie, Ind., Oct. 8.—All business on Sunday is condemned in a resolution passed by the Muncie Ministerial Association, whose members are the pastors of nearly all the Protestant churches of the city.

"This association publicly condemns the conducting of all business on Sunday in our city, except those of charity and necessity," the resolution reads, "for employees are entitled to one day of rest in seven."

The resolution does not cite any special kinds of business now conducted on Sunday which the ministers would have closed. No efforts have been made in recent years to stop the operation of the theaters on Sunday.

Nash Trucks

Experienced Buyers Recognize Unusual Values of Nash Trucks

Careful investigation of the Nash truck line convinces the experienced buyer of the high value of any truck bearing the Nash name plate.

This is illustrated again by the fact that after an extensive experience with motor truck transportation of various types, the U. S. Marine Corps selected the Nash Quad as standard equipment for expeditionary service. This is the reason Nash trucks are hauling the loads of many big commercial concerns which operate fleets of trucks in many cities.

This preference for Nash trucks is based on sound business judgment. For they have behind them, assuring their continued good performance, the standing and permanency in the industry of the Nash institution with its nation-wide sales and service organizations of distributors and dealers.

Amusements
Program at The Mystic
Splendid night scenes in New York's Chinatown are screened in "Fighting Destiny" the Vitagraph feature starring Harry T. Morey, which will be seen in the Mystic theater on today. This powerful struggle between love and duty and underworld influences is adapted from Stanley Shaw's "Jungle Heart" which ran in the Blue Book Magazine.
A Fatty Arbuckle comedy will also be shown.

William Farnum at Princess
William Farnum, the famous William Fox star, is to be the headline attraction at the Princess theatre, tonight. Mr. Farnum's latest photoplay is called "The Rainbow Trail" and is based on a novel by Zane Grey. The production was adapted and directed by Frank Lloyd.
"The Rainbow Trail" was photographed in the wilds of the Arizona desert and is a typical William Farnum production. It abounds in thrilling events and episodes. Mr. Farnum is supported by his famous cowboys, who do some marvelous riding and shooting.
The scenic effects are beautiful among those shown being the painted desert, the Grand Canyon of Arizona, and the homes of the ancient Aztec cliff dwellers. There also are numerous glimpses of the Navajo reservation and its inhabitants.

RED CROSS NOTES
Is the work of the Red Cross over? During August the Bureau of After-Care of the Home Service Sections in Ohio, Indiana and Kentucky looked after 5,898 disability and tuberculosis cases—an increase of 2,242 over the previous month.

The Red Cross helped the soldiers—now the soldiers are helping the Red Cross. Many discharged men have become Red Cross secretaries to help the "other fellow" and his family as he himself has been helped.

Queen Marie of Rumania is personally aiding the American Red Cross Commission to the Balkans in the distribution of relief supplies among destitute Rumanians. The queen has planned an American visit for the near future.

Most communities, at some time or other, are called upon to face an emergency or an overwhelming disaster. Whether through fire, flood, explosion, earthquake or epidemic, the American Red Cross of the future hopes to be equipped to meet the crisis. Organization of a disaster relief committee is being urged for every chapter.

FREE INTESTINAL
And Stomach Worms are those that do not attach themselves to the intestines or stomach. Worms which attach themselves to the stomach or intestines are properly called "blood suckers" and nothing will expel the "blood sucking worm" after they are formed.

The Thorn Headed Worm is a "blood sucker" and nothing will expel them after they are formed. They have a mass of thorns or hooks about the head and not only attach themselves to the intestines but bury the head into and clear through the intestines. The THORN HEADED WORM can be positively prevented by feeding Acme Worm Bouncer from birth to maturity. The Wisconsin Agricultural College, Veterinary Department, in Poster Bulletin No. 3, July 1914, says: "Serum will not give good results if worms, indigestion and other diseases are present." This tells you that when your hogs are vaccinated that you need Acme Worm Bouncer just the same, in fact, more, for you have spent on your hogs 50 to 75 cents per head more than the man who has not vaccinated.

Here's One Example in High Finance

New and clever schemes for inducing the investing public to part with its savings, its Liberty Bonds and War Savings Stamps in exchange for stocks of worthless stocks or those of speculative or doubtful value constantly are being developed. One of the latest of these was disclosed recently in the trial of Ellsworth J. Green and his son, E. H. Green of Oklahoma City.

This particular scheme was the means of landing the Greens in Leavenworth Prison for five year terms, but not until many hundreds of investors lost their savings.

The Greens through the Great Western Guarantee Investment Co. of Oklahoma City, promoted five oil companies. The original sales price of the stock in these companies was \$1 a share but by a clever resale agreement purchasers were guaranteed that the Great Western Company as fiscal agent would resell the stock if desired at the end of six months to net the investor \$2 a share or a profit of 100 percent.

As the date to fulfill this agreement drew near, stockholders were advised that the price of the stock had reached \$5 a share. Naturally if they came to believe the stock was worth \$5 they declined to accept the opportunity to sell for \$2.

For a time, stock salesmen reaped rich commissions but finally rumors that the reports were mislead-

Foley's Honey and Tar COMPOUND

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "croup," and that tight, wheezing breathing. It stops croup, too. It eases and checks whooping cough, measles cough and bronchial coughs.

Every User a Friend

"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughed any, and next day her cold was gone."—Mrs. R. M. Ranley, Stanford, Ky.

"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."—Mrs. E. C. Houlder, Grand Island, Neb.

Foley's Honey and Tar has been used for more than thirty years in thousands of homes for relief from coughs, colds, spasmodic croup, tickling throat, hoarseness, whooping cough, bronchial coughs and the coughs that follow influenza or la grippe

Sap and Salt

By BERT MOSES

Praise does not come from behind—kicks do.

Some men never reach the stage of quitter because they never start.

A man who boasts too much about his patriotism will bear watching.

Much sickness results from overestimating the capacity of the human stomach.

When you buy a marriage license, you pay your money and you take your chance.

Hez Heck says: "Women seem to be just as happy without petticoats as they used to be with them."

ing began to be spread and at a company banquet at Oklahoma City it is charged that the Greens attempted to sell out to the salesmen. At this point the government stepped in, arrested the promoters and began to unravel evidence which finally landed the Greens in prison on the charge of using the mails to defraud. Now the stockholders are attempting to save what is left of the assets of the companies.

Promises of profits of 100 to 500 percent from stock promoters seldom became realities. The country is being flooded with wild cat stocks by unscrupulous investors. The resale plan of the Greens' is only one of the many varieties of bait used. Any of these promoters are willing and anxious to take Liberty Bonds or War Savings Stamps and Treasury Savings Certificates in exchange for their bits of paper. They are perfectly willing to give a promise of profits for the sure payment guaranteed by the federal government.

Make Yourself Comfortable

Statistics have proved that by economy and industry—exercised continually, not sporadically—any wage earner or salaried man can make himself financially independent long before he is old.

But how many of us do? The reason why we don't is that "a man only lives once." We have only one chance to be young, and if we don't get all of the fun out of life in our youth, our appetites may be dulled by the lapse of time before we are able to indulge them at leisure.

So we don't control our appetites. We refuse to blend our industry with consistent economy. We go the pace in our youth, and feel the lack of allance in the decline of life.

If we could make the two virtues—industry and economy—inherent, permanent and universal we as a community would then indeed set a pace—a different pace—a pace of prosperity and happiness which would shed the radiance of peace and joy from the beginning to the end of life.

Whenever there is nothing else left in life that is funny, we can always squeeze a titter from our own jokes.

Our office devil insists that beauty is only skin deep, as they claim. But, he adds, some people have a hide as thick as a walrus.

Strange, isn't it, that foreigners always tell us that our language is very hard to learn. We haven't found it a bit difficult.

No, Samuel, you should never judge the quality of the rouge by the blush on a woman's face. You can never tell how much of it is genuine.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying Zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. It is not greasy, salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

HEAVY SCHEDULE FOR BALL TOSSERS

High School Will Open Basketball Season Here Friday Night When They Play Arlington

SCHEDULE IS ANNOUNCED

Will Play Some Fast Teams Including Columbus, Franklin and Anderson—21 Games Listed

Coach Sutton of the high school basketball team has announced the schedule for this winter, and with the exception of two dates in this month, the schedule has been completed. Many fast teams will appear here against the Rushville team, and the locals are practicing each evening in order to get into fine shape.

The regular team which will represent Rushville has not been picked, but Coach Sutton will have his pick from sixteen players who have reported each night for practice. The first game will be played here Friday night, when the Arlington team comes, and no regular line-up will be used, as the coach wishes to give all of the contenders a chance to play. The regular team will be selected sometime next week.

Only one player is on the team this year, who was in school last year, he being Emerson Headlee. He is also captain for this year's team. Harold Miller was on the substitute list last year, and will probably be given a position on the team this year.

The boys who have reported for practice and who will try to get on the regular team are, besides the two mentioned above: Lowell Headlee, Haven Frazee, Howard Eakins, Harold Tinsworth, Earl Morton, Russell Gray, John Davis, Eugene Kelly, Edwin Martin, Herman Phillips, Reade Casady, Garrett Reynolds, Carroll Nipp and Clarence Jordan.

The schedule for this season includes 12 games at home and 7 away from here. The invitational tourney will be held here on February 27 and an effort will be made to secure the district tourney, which has heretofore been held in Richmond.

The schedule follows:

Oct. 10, Arlington here.
Oct. 17, open.
Oct. 24, Sandusky here.
Oct. 31, open.
Nov. 7, Milroy here.
Nov. 14, Spiceland here.
Nov. 21, Moscow here.
Nov. 28, at Shelbyville.
Dec. 5, at Spiceland.
Dec. 6, Columbus here.
Dec. 12, at Franklin.
Dec. 19, Liberty here.
Jan. 3, Newcastle here.
Jan. 9, at Connersville.
Jan. 17, at Newcastle.
Jan. 24, Anderson here.
Jan. 30, Shelbyville here.
Feb. 6, at Liberty.
Feb. 7, at Columbus.
Feb. 13, Connersville here.
Feb. 20, Franklin here.
Feb. 27, Tournament here.

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

A. Conan Doyle's new born belief in spiritualism for his mental delectation calls to mind the story of the lady who professed spiritualism for many years and told of her nightly chats with her husband, who'd been dead a long time. She finally announced her defection as result of a conversation on the final night of the passing of the psychic rays: "John, dear, is this you?" she queried.

"Yes, Emma, my own," answered her spiritual husband.

"John, dear, are you happy?"

"Extremely so, Emma."

"John, dear, are you happier than you were on earth with me?"

"With all due respect to you, Emma, I am."

"John, Heaven must be a won-

derful place." There was a distinct pause and then:

"But I'm not in heaven, Emma." (Contributed by Andrew Thomas, Pharr, Texas.)

What's the use, Folks—What's the Use!

WHY take honest-to-John Tobacco that nature grew for us all—and then "spill the beans" by messing it up with lolly pops?

Velvet isn't fooled with that way.

Veivet has just naturally relied on Nature since it was knee-high to a grasshopper.

First off, it was bred in old Kentucky, wonderland of Tobacco.

Next come, it was cured in the open air, right out with the good ole sunshine. Yes sir.

THEN it was gentled along by its lonesome for two years, while it just kind of thought things over and decided to have no bad qualities.

After these two years in wooden hogsheads it was packed in the jolly red tin you see everywhere, if you're not color blind—and we hope you're not.

As Velvet Joe says:

"The way Nature does things is best for man and his tobacco. You can't fool Nature—an' she won't fool you."

FIFTEEN cents seems a pickayune price, doesn't it, after all that?

Can you think, right off, of anything more or better for a dime and a nickel? And for cigarette smokers—there are 45 mellow cigarettes in every Velvet tin.

Velvet sure will be right glad to meet you this very day.

Addington, pastor of the Little Blue River Friends church, performing the ceremony. Those witnessing the ceremony were Miss Ella Wright of Texas and Mrs. Elsie Addington and little daughter Esther. Mr. and Mrs. Linville left immediately for Indianapolis on a short wedding trip after which they will be at home to their friends on Mrs. Oliver Bindford's farm.

Mrs. Margaret E. English entertained yesterday the W. R. C. Penny Social and the War Mothers at her home in West Second street. Twenty-six corps members, nine war mothers and five visitors were present. Mrs. Gupton of Missouri and Mrs. Mary E. S. Conover were among the visitors. A very interesting program was rendered, consisting of patriotic songs and readings. Some of the readings touched on Columbus and James Whitcomb Riley. Mrs. Gregg gave some very beautiful solos. A very interesting letter was read from Albert Cox, who is the son of a war mother and is now stationed in Paris. At the business meeting the social decided to make a quilt in the near future. At the meeting the war mothers extended an invitation to Penny social to meet with them in the near future. Refreshments of ice cream, coffee and cake were served. The next social will be with Mrs. Malinda Young the first Tuesday in November. The assisting hostesses were Mrs. Mary E. Young, Pearl Crim and Mrs. George Murphy.

Mr. and Mrs. Howard Steele entertained at their country home north of the city Saturday evening with a six o'clock supper the Mr. and Mrs. Charley Roberts and daughter Luanna from near Lewisville, Clarence Roland of Camp Funston, Kansas and Lois Fry of Sexton.

TO INTRODUCE PROPOSALS

(By United Press.)
Washington, Oct. 8.—The industrial peace conference met today and found there was no business before it and adjourned until tomorrow.

During the adjournment the three groups will convene separately to prepare proposals to be introduced at tomorrow's conference.

T. H. Chadbourne, chairman of the Central committee, is preparing to propose a long adjournment to give the central committee time to consider more proposals that are being prepared for introduction. it was stated.

Tomorrow conference is expected to be flooded with proposals. More than two hundred have been received from outside forces.

REBELLION IS REPORTED.

(By United Press.)
Copenhagen, Oct. 8.—Dispatches received here from Helsingfors says a wireless advice has been received in Courland reporting a serious rebellion against the Bolsheviks started at Moscow by social revolutionists. Lenin was reported to have ordered the imprisonment of Trotsky, but Lenin himself was arrested instead.

House Makes Appropriation of Emergency Funds 2 Times in Week

Washington, Oct. 7.—For the second time in a week, the House has been compelled to make an emergency appropriation of public funds to "patch up" an irregularity of the executive branch of the government. A few days ago it made an appropriation of approximately \$250,000 to meet excess salary expenditures of the Department of Commerce, and now has been necessary to make an appropriation of \$116,000 to provide the necessary winter comfort for the officers of the Army Engineers' School.

Phonograph Music at its Complete Best

THE mission of the phonograph is to reproduce music just as it was originally rendered. It is not intended that it shall create tones or harmonies of its own. It is simply a medium for picturing, as vividly as possible, the tone-colors of all voices and all instruments.

The peculiar ability of the Aeolian-Vocalion to reproduce musical tones in their natural and original colors is the key to its superiority — a superiority clearly audible to every listener who possesses a musical ear.

Ever since its appearance on the market four years ago, the Vocalion has been recognized by musicians as having the power to render musical tones more clearly and in a more life-like manner than any phonograph. From the first it was possible for the Vocalion to obtain from phonograph records of various makes, tonal beauties that had never before been audible.

Style 620

IT was not until last year, however, when the Vocalion Record made its appearance, that phonograph music at its complete best was realized.

Then actually came reproductions of the human voice and of musical instruments that were unhampered by blast, stridency or surface noise; that in tonality, rhythm and harmonics were crystal clear and true to life.

The pains taken in the perfecting of all mechanical parts of the Vocalion—the ever-returning novelty and pleasure of being able to play the records by hand with the exclusive Graduola feature—the taste and skill displayed in case designing, and the high standing of the artists who are making Vocalion Records—all contribute their important share in the conspicuous popularity that has spread beyond every expectation; and has stretched the Vocalion output to its limits.

We invite you to call at our display rooms and hear for yourself—hear your favorite record played—as you have never before dreamed that it could be played—Hear the New Vocalion play all makes of disc records with the same reproducer, with the same needle—AND IMPOSSIBLE—as it may seem to you—without that terrible GRINDING, SCRATCHING NOISE so commonly heard on the ordinary Phonograph. The New Vocalion with its exclusive features, the Graduola Tone Control, the Improved Automatic Stop and the Insulated lid should appeal to you, if you want Phonograph Music at its Complete Best. Don't be misled. Hear the Vocalion and have its construction explained to you thoroughly before you buy a phonograph. It will be a half hour well spent, and we will be pleased to show you, whether you are ready to buy or not.

ASK US TO EXPLAIN OUR VOCALION XMAS SAVING PLAN—We sell them on terms that you can afford to own one. For the next ten days we will accept Liberty Bonds at their face value in payment on Vocalions for Xmas delivery.

DRUG SLAVES ARE BEING TREATED

New York City For First Time in Its History Has a Daily Line of Drug Victims

REMARKABLE RESULTS SHOWN

Over 2,000 Persons Line up For "Drug Shots" and Their Dosage Decreased Daily

By W. R. HARGRAVES
(U. P. Staff Correspondent.)

New York, Oct. 8.—Wizened youths, men and women cluster outside a long, rambling, corrugated iron building on one of the downtown side streets each morning. Their gaunt faces and staring eyes, however, are not caused by hunger for food.

They are hungry for drugs. Nervously twitching fingers, almost complete lack of physical repose in any muscle of their bodies bespeak their craving for some narcotic.

And their sufferings are being assuaged by the government of the City of New York. Through this relief the city is at the same time, and for the first time in municipal history, bringing the addicts back to normal condition and removing from among society a menace, heretofore unchecked.

Most remarkable cures, according to leading physicians, are being effected at the clinic, through a simple reduction dosage. Nearly 2,000 are treated free each day. But day by day, since the institution was opened, the number is constantly diminishing, according to the attendants.

Some of the men and women had previously used as high as 25 grains of heroin a day, Dr. Royal R. Copeland, of the Health department said. Each day the dose is reduced a quarter of a grain until finally only two or three grains are required to give the addict relief.

When that period arrives, the patient is sent to a hospital when soon the drug is entirely eliminated from the dosage card and the reclaimed addict's physical and mental strength restored by tonics and nourishing food.

Many of the addicts have become slaves to the drug because of relief obtained by it during illness or serious injury. Others, are prosperous appearing actors, lawyers or other professional men who, perhaps, believed they must dull their ever-active nervous or mental energy to properly pursue their life-work. Still others are soldiers who have suffered shell shock or who were constantly under the influence of drugs in some European hospital after passing through the inferno of the battlefields.

The ends to which addicts would go to obtain drugs, denied them through recent laws, are unlimited, according to police officials and physicians. For this reason as well as for the reclamation of the unfortunates, the city has established the clinic which has won, not only the admiration of all directly associated with the addicts, but, in a great many cases, the undying gratitude of the men too weak to withstand the craving.

Continued from Page One
Havens a permit to move two-story frame house from the property recently purchased by J. D. Case in Perkins street to First and Harrison streets. Supt. Mahin of the water and light plant appeared before the council and said that the house was so tall, that the main power and light wires for the business-part of the city, would have to be moved, cut and spliced.

He said that his men were too busy to attend to the matter, and that it would cost several hundred dollars for the city to change the wires.

The council finally reached the conclusion that if Mr. Havens wished a permit to move his house, he would have to appear before the council and ask for it in the usual manner, which in this case would require a deposit bond of about \$2,000 and all costs to be paid by the owner of the building.

Amy Ellerman and the Fleming Sisters Trio drawn from actual photographs

Why Last Friday's audience at Main Street Christian Church was so completely mystified. Amy Ellerman and the Fleming Sisters were inside the phonograph in all excepting physical presences

At first reading, the story of the New Edison's performance last Friday night at the Main Street Christian church seems fraught with mystery.

But the explanation is simple enough.

First, get a picture of what happened. Miss Ellerman sang Cowles "Forgotten." She stopped after the first few lines, but her voice flowed on without a break. No one even noticed she had stopped—until some eyes, keener than the rest, saw her lips were still. It was only then that realization dawned. The audience found it had been listening to the New Edison.*

To every ear, the two voices, living and RE-CREATED, had been without a shade of difference. When the Fleming Sisters Trio made similar tests with their instrumental selections, the same result was obtained.

That was what so mystified the audience. They had expected the RE-CREATED art to betray its phonographic origin. It was a step too advanced for their comprehension that this instrument should be all that Miss Ellerman and the Fleming Sisters Trio are, excepting their physical presence.

The NEW EDISON

"The Phonograph with a Soul"

This extraordinary proof is the only means through which people learn to appreciate the true powers of the New Edison. If you are interested in music, it is indeed unfortunate that you were not present.

Yet, you know this is a test which no other phonograph dares to attempt. It is proof that no one can evade or deny. The New Edison* is the only phonograph which RE-CREATES music and the soul of music.

*The instrument used in last Friday's Tone-Test is the regular model which sells for \$285 (in Canada, \$431). It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

Doctor Says Condition Improves
Very Slowly

(By United Press.)

Washington, Oct. 8.—The president's condition continues to improve slowly," said a statement issued at noon today by Dr. Grayson. The doctor expressed satisfaction with the president's progress. The improvement is not regarded unfavorable but it is feared that a sudden reaction probably would occur. The doctors are perplexed with the problem in enforcing the rest cure without irritating the president, it was stated, since he is continually thinking of the things he should do. The president remains propped up in bed during the day.

WILL ORGANIZE HERE TOMORROW

All Townships in Rush County Are
Now Ready to Perfect a County
Organization

TWO MEETINGS TOMORROW

County Organization Will Then Affili-
ate With State Body—Meet-
ings Held Last Night

Several townships in Rush county held meetings last night to complete their organization body, which in turn will affiliate with the State Farmers' Association. These meetings last night were held in Walker, Union, Jackson and Rushville townships, each township completing their part of the organization, by selecting a chairman and a secretary.

At these meetings representatives were chosen to attend the meeting here this afternoon, for the purpose of preparing a constitution and by-laws for the county organization. The meeting this afternoon was held in the sheriff's office and they were busy getting the by-laws ready to be presented at the county meeting which will be held here tomorrow.

Will L. Brown was elected permanent chairman for Rushville township at the meeting held here last night, and John Davis was elected secretary. In Walker township, the meeting was attended by about 100 farmers, and the Christian church in Homer was well filled with people who were interested in an organized body of farmers.

The meeting here tomorrow is for the purpose of perfecting a county organization, which will affiliate with the state association. Meetings will be held here tomorrow, both in the afternoon and at night.

It was learned this morning that William Bosson, state treasurer for the \$200,000 fund, will be here and will be one of the important speakers, as will be C. F. Patterson, a farmer of Tipton county. Mr. Patterson has made several speeches in the county, and is well known among the farmers, as being a very able speaker.

City Council Lets Contract For New
Equipment to Chase Engine and
Manufacturing Co.

NEW ADDITION IS STARTED

Council Hopes to Have it Installed
In Time to Relieve Strain Dur-
ing The Holidays

The city council which met in regular session last night, allowed the contract for the new equipment for the electric light plant, to the Chase Engine and Manufacturing Company of Mattoon, Ill., their bid being \$18,657.

The council received bids for the equipment on September 25, at which time five bidders were present. The council at that time did not want to jump at one bid too quickly, so have investigated the various proposition for the two weeks. At the meeting last night several representatives were on hand, and answered questions concerning their machinery.

Work has been started on enlarging the plant, and a new part will be added at the east end of the present structure. The outfit which the council bought last night, is now in stock at Mattoon, and is crated ready for shipment.

The council would like very much to have the new machinery installed before the middle of December, so as to relieve the strain during the Christmas season.

The mayor's report for the quarter ending September 30, showed that \$110 had been collected by him in docket fees and turned over to the city treasurer, and that he had received during the three month's period prior to September 30, \$155 in fines, which had also been given to the city treasurer.

Some of the factories in the northwestern part of Rushville seemed to object to the street commissioner not opening up the new concrete bridge in Ninth street, near the city park. The bridge was just put in last week, and the council decided that it would be unwise to allow heavy log wagons to go over the bridge too soon, so they placed the date as October 18, as the time the street commissioner could open it.

The matter of purchasing a side car for the police motorcycle was taken up, and after a short discussion it was decided to buy one, and the council left the matter in the hands of the police committee, with power to act.

At Eleventh and Main streets, a jog in the street is to be reduced, by moving the curb stone in 11th street to conform with the rest of the curb. At the intersection of these two streets, there is a bad turn, and without much trouble the street commissioner can move the curb two or three feet, which will line Eleventh street up with Main, a little better, and then reduce the abrupt turn.

The council also discussed the advisability of allowing Horatio S. Continued on Page Eight

Reported That Counterfeits Are in
Circulation in Indiana

Postmaster G. P. Hunt has received a notice from the secret service agent in Indiana, Thomas E. Halls, asking him to be on the lookout for counterfeit War Savings stamps, which have been reported to be in circulation. According to the word received here the imitation stamps are of the 1919 issue, and are photographic productions of good blue color, but the fine lines behind the portrait are in solid colors. Local postoffice officials cannot see how anyone hopes to gain by the counterfeits because the War Savings stamps are not transferable and the persons who wish to cash them must wait ten days after notice, before the transaction can be made.

Brings Suit For Divorce

WEAVER ASKS NEW TRIAL

A divorce was filed this morning in circuit court by Jessie L. Richardson against William D. Richardson. Mrs. Richardson alleging cruel and inhuman treatment, in that her husband was cross, sullen and was bad tempered toward her. She also alleges that he cursed her, called her a fool, an idiot and that she had no sense.

Mrs. Richardson states that they were married February 7th, 1912, and separated October 7th, 1919. She lives in Noble township, 2 1/2 miles west of Glenwood.

The Creamery Package Manufacturing Company which was awarded judgment a few weeks ago in the court here against Levi B. Weaver, this morning had a new suit filed against them, Mr. Weaver filing a motion for a new trial. No disposition was made of the motion today, as Judge Sparks was in Indianapolis today on business.

FLIGHT ACROSS U. S. GETS STARTED TODAY

Greatest Aerial Race in History Be-
gins With 71 Planes Making
a Good Start

LEAVE FROM BOTH ENDS

(By United Press.)

New York, Oct. 8.—The greatest aerial race in history began at 9:15 today when 71 airplanes started to take off on a trans-continental flight between New York and San Francisco.

Sixty-five of the machines were scheduled to leave Mineola and the remainder were to start from San Francisco. All of the planes have tested more than 100 miles an hour.

The race across the continent of 5,400 miles is expected to require 12 days.

Twenty-one patrol stations are on the route, where each plane will stop thirty minutes. There will be no night flying.

BOOM FOR WOOD STARTED

Chicago, Ill., Oct. 8.—Definite steps to bring out Major General Wood as a candidate on the republican nomination for president was taken here today. J. I. King, republican committeeman and manager of the Wood boom, arrived here to meet Wood's backers from the North West. A tentative search for headquarters have been started.

Earl H. Payne is Appointed County
Chairman For Roosevelt Mem-
orial Fund

TOWNSHIPS HEADS SELECTED

Will be Notified of Appointment
From State Headquarters—
Pastors to Aid Sunday

Earl H. Payne has been appointed county chairman for the Roosevelt Memorial campaign which will be conducted the week of October 20. The county has been organized and the township chairmen will be notified from Indianapolis headquarters.

There is not believed to be any doubt but that Rush county can make its share of the \$200,000 quota for the state, because Roosevelt admirers of all parties will be ready to help in erecting a memorial to the former president, led the fight for Americanism all during the war.

Through the church committee of the state association, every pastor in the state asked, personally, to set aside a portion of the morning hours of Sunday October 19th, for an Americanization program. The Rev. Morton C. Pearson, President of the State Federation of Churches, has just issued a circular letter to the ministers, declaring, among other things that "it would be fitting also that in the Sunday schools of Indiana a program should be given which will illustrate the virtues of this great American (Roosevelt)."

Americanization Sunday will be the opening of a special week devoted to patriotic effort on the part of the Roosevelt Memorial Association. On Friday, October 14th, Americanization Day will be observed in the schools. Appropriate programs have been suggested to the school officials of the State by State Superintendent of Public Instruction L. N. Hines and Ellis U. Graft, Superintendent of the Indianapolis Continued on Page Two

FINED FOR PASSING STANDING SCHOOL HACK

Aaron Harold, Son of Mr. and Mrs.
Alva Harold, Pays \$1 and Costs
For Violating State Law

ANOTHER BOY IS ARRESTED

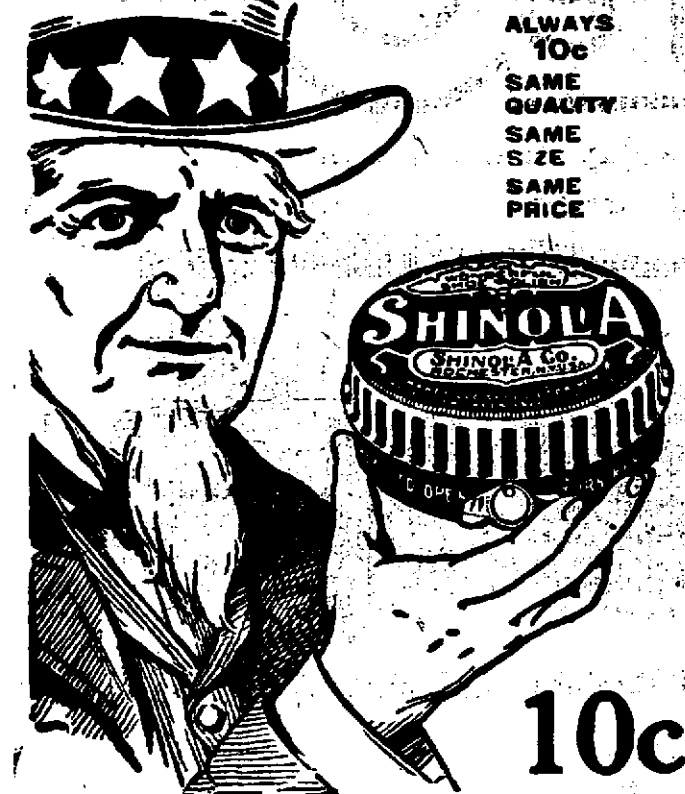

Aaron Harold, son of Mr. and Mrs. Alva Harold, living a short distance west of the city, was fined one dollar and costs, amounting in all to \$12, by Squire J. P. Stech, this morning, when he pleaded guilty to a charge of violating the state law prohibiting the passing of school hacks, while they are taking on or discharging school children.

The alleged offense took place last Friday afternoon in front of the Circleville school house. The hack was standing in front of the building and children were taking their places in it, preparatory to going home. The Harold boy, it is alleged, and another boy, who was racing with their machines, passed the hack at a high rate of speed. The other boy was to appear before Squire Stech at four o'clock this afternoon and it was expected that he would plead guilty.

J. P. Young, Rushville township trustee, and other school officials of the county, have repeatedly warned automobile drivers about this law, and have said that if violations continued, arrests would be made. The lives of school children are endangered almost daily by machines passing standing hacks, and school officials are determined to break up the practice.

Let Your Hogs Choose

If you give your hogs a chance to choose among different feeds, you will find that they go for Swift's Digestive Tankage first. They crave for protein. They need it.

Poor pastures are handicapping your hog production. If you want the best results, you must supply protein elsewhere.

60 per cent tankage, though a little higher per 100 pounds, is much cheaper than other protein hog feeds in the long run because of the large proportion of protein it contains.

Of all 60 per cent tankages you will find Swift's superior.

Why?

Because every bit of that 60 per cent is available.

Because the filler is made of valuable rations such as fat and phosphates.

Because the hogs themselves prefer it.

schools. It is believed that the occasion will be observed by all public, private, and parochial schools.

The Rev. Pearson, referring to the plans of the Association informs the pastors of the State that the Roosevelt Memorial Association, which organization seeks to raise a fund for the erection of suitable memorials in memory of Theodore Roosevelt, calls upon you through our Church Committee, to set apart the Sunday morning hours of October 19th for the holding of a service in memory of Mr. Roosevelt at which time you may set forth the outstanding doctrines of Americanism, as illustrated in the life and service of Mr. Roosevelt. It is to be known as Americanization Sunday and the week following as Americanization week. The ministers of all denominations without regard to creed are being petitioned to observe this day and it is our hope that on that day every pulpit in Indiana will ring forth the appeal for real intense Americanism as a safeguard during this period of unrest.

The ideals of Roosevelt, which include his love of country, his fidelity to wife, home, friends and principals of justice and honor furnish fine illustration and inspiration for the celebration of Americanization Sunday.

Had to Lay Off Month At Time

Petersen Spent \$500 For Medicines That Did Him No Good—Restored by Tanlac.

"I have spent over five hundred dollars for medicine during the past five years; and Tanlac is the only thing that has done me any good at all," said P. E. Petersen, a well known fireman who is employed at the Milwaukee Novelty Dye Works, and who lives at 1557 Third Street, Milwaukee, the other day.

"I had about made all arrangements to be operated on," continued Mr. Petersen, "and after reading so much about Tanlac, I decided to postpone the operation and give this medicine a trial. I had suffered so long from stomach trouble without getting any relief, that I was finally told that an operation was the only thing left. I had reached the point where I would have terrible cramping spells in less than thirty minutes after every meal. I would often almost lose my breath on account of gas forming so bad, and the misery I suffered from headaches will never be known to anybody except myself. This trouble just gradually got worse all the time until I got to where I couldn't retain anything I ate—not even a glass of milk. I never slept well, in fact, there were many nights when I just had to walk the floor all night long and not sleep a wink. I was so nervous at times that I couldn't stand to have anybody talk to me. I finally got to where I could hardly get about, and would be laid up for a month at a time.

"Well, as I have already said, I took Tanlac as a last resort before submitting to an operation, and I am mighty glad I did, for it overcame my troubles, and I am now a sound, well man again without having to go under the knife. You may believe it or not, but it's the truth if I ever told it. I haven't had a pain of any kind since I finished my first bottle of Tanlac, and I can sit down now and eat a big, square meal and it never causes me the least bit of trouble afterward. I have gained ten pounds already and am back at my work and never lose a minute's time. A hard day's work doesn't hurt me, either, for I just hustle home and wash up and eat as heartily a supper as anybody, and go to bed and stretch out and sleep like a school boy all night long. Those headaches and smothering spells have left me, too, and in fact, I am in a fine condition in every way, and I tell the world that Tanlac is responsible for it all."

"The Church Committee thanks you for your hearty cooperation in this great movement and expresses the hope that the services of this day may bear rich fruitage in the life of your congregation."

CONDEMN SUNDAY BUSINESS

(By United Press.)

Muncie, Ind., Oct. 8.—All business on Sunday is condemned in a resolution passed by the Muncie Ministerial Association, whose members are the pastors of nearly all the Protestant churches of the city. "This association," publicly condemns the conducting of all business on Sunday in our city, except those of charity and necessity," the resolution reads, "for employees are entitled to one day of rest in seven."

The resolution does not cite any special kinds of business now conducted on Sunday which the ministers would have closed. No efforts have been made in recent years to stop the operation of the theaters on Sunday.

Nash Trucks

Experienced Buyers Recognize Unusual Values of Nash Trucks

Careful investigation of the Nash truck line convinces the experienced buyer of the high value of any truck bearing the Nash name plate.

This is illustrated again by the fact that after an extensive experience with motor truck transportation of various types, the U. S. Marine Corps selected the Nash Quad as standard equipment for expeditionary service. This is the reason Nash trucks are hauling the loads of many big commercial concerns which operate fleets of trucks in many cities.

This preference for Nash trucks is based on sound business judgment. For they have behind them, assuring their continued good performance, the standing and permanency in the industry of the Nash institution with its nation-wide sales and service organizations of distributors and dealers.

Program at The Mystic

Splendid night scenes in New York's Chinatown are screened in "Fighting Destiny" the Vitaphone feature starring Harry T. Morey, which will be seen in the Mystic theater on today. This powerful struggle between love and duty and underworld influences is adapted from Stanley Shaw's "Jungle Heart" which ran in the Blue Book Magazine.

A Fatty Arbuckle comedy will also be shown.

William Farnum at Princess

William Farnum, the famous William Fox star, is to be the headline attraction at the Princess theatre, tonight. Mr. Farnum's latest photoplay is called "The Rainbow Trail" and is based on a novel by Zane Grey. The production was adapted and directed by Frank Loyd.

"The Rainbow Trail" was photographed in the wilds of the Arizona desert and is a typical William Farnum production. It abounds in thrilling events and episodes. Mr. Farnum is supported by his famous cowboys, who do some marvelous riding and shooting.

The scenic effects are beautiful among those shown being the painted desert, the Grand Canyon of Arizona, and the homes of the ancient Aztec cliff dwellers. There also are numerous glimpses of the Navajo reservation and its inhabitants.

RED CROSS NOTES

Is the work of the Red Cross over? During August the Bureau of After-Care of the Home Service Sections in Ohio, Indiana and Kentucky looked after 5,893 disability and tuberculosis cases—an increase of 2,242 over the previous month.

The Red Cross helped the soldiers—now the soldiers are helping the Red Cross. Many discharged men have become Red Cross secretaries to help the "other fellow" and his family as he himself has been helped.

Queen Marie of Rumania is personally aiding the American Red Cross Commission to the Balkans in the distribution of relief supplies among destitute Rumanians. The queen has planned an American visit for the near future.

Most communities, at some time or other, are called upon to face an emergency or an overwhelming disaster. Whether through fire, flood, explosion, earthquake or epidemic, the American Red Cross of the future hopes to be equipped to meet the crisis. Organization of a disaster relief committee is being urged for every chapter.

FREE INTESTINAL

And Stomach Worms are those that do not attach themselves to the intestines or stomach. Worms which attach themselves to the stomach or intestines are properly called "blood suckers" and nothing will expel the "blood sucking worm" after they are formed.

The Thorn Headed Worm is a "blood sucker" and nothing will expel them after they are formed. They have a mass of thorns or hooks about the head and not only attach themselves to the intestines but bury the head into and clear through the intestines. The THORN HEADED WORM can be positively prevented by feeding Acme Worm Bouncer from birth to maturity. The Wisconsin Agricultural College, Veterinary Department, in Poster Bulletin No. 3, July 1914, says: "Serum will not give good results if worms, indigestion and other diseases are present." This tells you that when your hogs are vaccinated that you need Acme Worm Bouncer just the same, in fact, more, for you have spent on your hogs 50 to 75 cents per head more than the man who has not vaccinated.

Here's One Example in High Finance

New and clever schemes for inducing the investing public to part with its savings, its Liberty Bonds and War Savings Stamps in exchange for stocks of worthless stocks or those of speculative or doubtful value constantly are being developed. One of the latest of these was disclosed recently in the trial of Ellsworth J. Green and his son, E. H. Green of Oklahoma City.

This particular scheme was the means of luring the Greens in Leavenworth Prison for five year terms, but not until many hundreds of investors lost their savings.

The Greens through the Great Western Guarantee Investment Co. of Oklahoma City, promoted five oil companies. The original sales price of the stock in these companies was \$1 a share but by a clever resale agreement purchasers were guaranteed that the Great Western Company as fiscal agent would resell the stock if desired at the end of six months to net the investor \$2 a share or a profit of 100 percent.

As the date to fulfill this agreement drew near, stockholders were advised that the price of the stock had reached \$5 a share. Naturally if they came to believe the stock was worth \$5 they declined to accept the opportunity to sell for \$2.

For a time, stock salesmen reaped rich commissions but finally rumors that the reports were mislead-

Foley's Honey and Tar COMPOUND
IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "snuffles," and that tight, wheezing breathing. It stops croup, too. It eases and checks whooping cough, measles cough and bronchial coughs.

Every User a Friend
"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughed any, and next day her cold was gone."
—Mrs. R. M. Ranley, Stamford, Ky.

"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."
—Mrs. E. C. Hostler, Grand Island, Neb.

Foley's Honey and Tar has been used for more than thirty years in thousands of homes for relief from coughs, colds, spasmodic croup, tickling throat, hoarseness, whooping cough, bronchial coughs and the coughs that follow influenza or la grippe.

Sap and Salt

By BERT MOSES

Praise does not come from behind—kicks do.

Some men never reach the stage of quitter because they never start.

A man who boasts too much about his patriotism will wear watching.

Much sickness results from overestimating the capacity of the human stomach.

When you buy a marriage license, you pay your money and you take your chance.

Hez Heck says: "Women seem to be just as happy without petticoats as they used to be with them."

ing began to be spread and at a company banquet at Oklahoma City it is charged that the Greens attempted to sell out to the salesmen. At this point the government stepped in, arrested the promoters and began to unravel evidence which finally landed the Greens in prison on the charge of using the mails to defraud. Now the stockholders are attempting to save what is left of the assets of the companies.

Promises of profits of 100 to 500 percent from stock promoters seldom became realities. The country is being flooded with wild cat stocks by unscrupulous investors. The resale plan of the Greens is only one of the many varieties of bait used. Any of these promoters are willing and anxious to take Liberty Bonds or War Savings Stamps and Treasury Savings Certificates in exchange for their bits of paper. They are perfectly willing to give a promise of profits for the sure payment guaranteed by the federal government.

Make Yourself Comfortable

Statistics have proved that by economy and industry—exercised continually, not sporadically—any wage earner or salaried man can make himself financially independent long before he is old.

But how many of us do?

The reason why we don't is that "a man only lives once." We have only one chance to be young, and if we don't get all of the fun out of life in our youth, our appetites may be dulled by the lapse of time before we are able to indulge them at leisure.

So we don't control our appetites. We refuse to blend our industry with consistent economy. We go the pace in our youth, and feel the lack of affluence in the decline of life.

If we could make the two virtues—industry and economy—inherent, permanent and universal we as a community would then indeed set a pace—a different pace—a pace of prosperity and happiness which would shed the radiance of peace and joy from the beginning to the end of life.

Whenever there is nothing else left in life that is funny, we can always squeeze a titter from our own jokes.

Our office devil insists that beauty is only skin deep, as they claim. But, he adds, some people have a hide as thick as a walrus.

Strange, isn't it, that foreigners always tell us that our language is very hard to learn. We haven't found it a bit difficult.

HEAVY SCHEDULE FOR BALL TOSSERS

High School Will Open Basketball Season Here Friday Night When They Play Arlington

SCHEDULE IS ANNOUNCED

Will Play Some Fast Teams Including Columbus, Franklin and Anderson—21 Games Listed

Coch Sutton of the high school basketball team has announced the schedule for this winter, and with the exception of two dates in this month, the schedule has been completed. Many fast teams will appear here against the Rushville team, and the locals are practicing each evening in order to get into fine shape.

The regular team which will represent Rushville has not been picked, but Coach Sutton will have his pick from sixteen players who have reported each night for practice. The first game will be played here Friday night, when the Arlington team comes, and no regular line-up will be used, as the coach wishes to give all of the contenders a chance to play. The regular team will be selected sometime next week.

Only one player is on the team this year, who was in school last year, he being Emerson Headlee. He is also captain for this year's team. Harold Miller was on the substitute list last year, and will probably be given a position on the team this year.

The boys who have reported for practice and who will try to get on the regular team are, besides the two mentioned above: Lowell Headlee, Haven: Frazer, Howard Eakins, Harold Pittsworth, Earl Morton, Russell Gray, John Davis, Eugene Kelly, Edwin Martin, Herman Phillips, Reade Casady, Garrett Reynolds, Carroll Nipp and Clarence Jordan.

The schedule for this season includes 12 games at home and 7 away from here. The invitational tourney will be held here on February 27 and an effort will be made to secure the district tourney, which has heretofore been held in Richmond.

- The schedule follows:
- Oct. 10, Arlington here.
 - Oct. 17, open.
 - Oct. 24, Sandusky here.
 - Oct. 31, open.
 - Nov. 7, Milroy here.

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

A. Conan Doyle's new born belief in spiritualism for his mental delectation calls to mind the story of the lady who professed spiritualism for many years and told of her nightly chats with her husband, who'd been dead a long time. She finally announced her defection as result of a conversation on the final night of the passing of the psychic rays: "John, dear, is this you?" she queried.

"Yes, Emma, my own," answered her spiritual husband.

"John, dear, are you happy?"

"Extremely so, Emma."

"John, dear, are you happier than you were on earth with me?"

"With all due respect to you, Emma, I am."

"John, Heaven must be a won-

What's the use, Folks—What's the Use!

WHY take honest-to-John Tobacco that nature grew for us all—and then "spill the beans" by messing it up with lolly pops?

Velvet isn't fooled with that way.

Velvet has just naturally relied on Nature since it was knee-high to a grasshopper.

First off, it was bred in old Kentucky, wonderland of Tobacco.

Next come, it was cured in the open air, right out with the good ole sunshine. Yes, sir.

THEN it was gentled along by its lonesome for two years, while it just kind of thought things over and decided to have no bad qualities.

After these two years in wooden hogsheds it was packed in the jolly red tin you see everywhere, if you're not color blind—and we hope you're not.

As Velvet Joe says:

"The way Nature does things is best for man and his tobacco. You can't fool Nature—an' she won't fool you."

FIFTEEN cents seems a pickayune price, doesn't it, after all that?

Can you think, right off, of anything more or better for a dime and a nickel? And for cigarette smokers—there are 45 mellow cigarettes in every Velvet tin.

Velvet sure will be right glad to meet you this very day.

Miss Helen Norris will entertain the members of the Young Ladies Circle of the Little Flat Rock Christian church Friday afternoon at two o'clock at her home southeast of the city. All members are urged to be present.

The Methodist Ladies Aid society met yesterday afternoon at the home of Mrs. D. C. Compton in West Third street. The members present enjoyed an interesting program, after which the hostess served refreshments.

The regular meeting of the Psi Iota sorority which was to have been held this week, has been postponed until next Tuesday night. At that time they will meet with Miss Aliene Budd at her home in North Harrison street.

Mrs. I. L. Endres of this city was one of the guests at a shower given in Shelbyville today for Miss Hester Porter, daughter of Mr. and Mrs. Enos Porter of Shelbyville, whose marriage to Parrish Fuller of Louisiana, formerly of Shelbyville, will take place this month.

Mrs. H. H. Elliott entertained the members of the First United Presbyterian Ladies Aid society yesterday afternoon at her home in North Harrison street. A short program was given, followed by a business session and social hour. A luncheon was served at the close of the afternoon.

Members of the Glenwood C. W. B. M. delightfully entertained with an all day meeting yesterday at the home of Mrs. M. A. Kendall in Glenwood. At noon a pitch-in dinner was served and in the afternoon those present enjoyed a very interesting program which had been prepared for the occasion. Delegates from the Rushville, Fairview, Plum Creek and Orange C. W. B. M. were also present for the meeting.

Mr. and Mrs. Morris Winship delightfully entertained yesterday at their home in East Fifth street, honoring Mrs. Winship's mother, Mrs. J. H. Pearsey, who was eighty-four years old. A delicious dinner was served at noon and covers were laid for the following guests: Will Pearsey, Horace Pearsey, Dr. and Mrs. Hale Pearsey, Mr. and Mrs. Will Winship and daughter Margaret and son William and Mrs. William Newkirk.

A pitch-in dinner was given Sunday at the home of J. Frank Wilson

south of the city with the following guests present, Mrs. Alice A. Miss Nola M. Barnard, daughter of Mr. and Mrs. Emerson Barnard, and Luther C. Linville, son of Mr. and Mrs. Fael Linville, were quietly married at the home of the bride's parents near Gwynneville Saturday evening at eight o'clock, the Rev. Luther E. Addington, pastor of the Little Blue River Friends church, performing the ceremony. Those witnessing the ceremony were Miss Ella Wright of Texas and Mrs. Elsie Addington and little daughter Esther. Mr. and Mrs. Linville left immediately for Indianapolis on a short wedding trip after which they will be at home to their friends on Mrs. Oliver Bindford's farm.

Mrs. Margaret E. English entertained yesterday the W. R. C. Penny Social and the War Mothers at her home in West Second street. Twenty-six corps members, nine war mothers and five visitors were present. Mrs. Gupton of Missouri and Mrs. Mary E. S. Conover were among the visitors. A very interesting program was rendered, consisting of patriotic songs and readings. Some of the readings touched on Columbus and James Whitcomb Riley. Mrs. Gregg gave some very beautiful solos. A very interesting letter was read from Albert Cox, who is the son of a war mother and is now stationed in Paris. At the business meeting the social decided to make a quilt in the near future. At the meeting the war mothers extended an invitation to Penny social to meet with them in the near future. Refreshments of ice cream, coffee and cake were served. The next social will be with Mrs. Malinda Young the first Tuesday in November. The assisting hostesses were Mrs. Mary E. Young, Pearl Crim and Mrs. George Murphy.

Mr. and Mrs. Howard Steele entertained at their country home north of the city Saturday evening with a six o'clock supper the Mr. and Mrs. Charley Roberts and daughter Luanna from near Lewisville, Clarence Roland of Camp Funston, Kansas and Lois Fry of Sexton.

INDUSTRIAL PEACE CONFERENCE MEETS

Finds no Business Before it and Adjourned Until Tomorrow to Prepare Proposals

TO INTRODUCE PROPOSALS

(By United Press.)

Washington, Oct. 8.—The industrial peace conference met today and found there was no business before it and adjourned until tomorrow.

During the adjournment the three groups will convene separately to prepare proposals to be introduced at tomorrow's conference.

T. H. Chadbourn, chairman of the Central committee, is preparing to propose a long adjournment to give the central committee time to consider more proposals that are being prepared for introduction, it was stated.

Tomorrow conference is expected to be flooded with proposals. More than two hundred have been received from outside forces.

Phonograph Music at its Complete Best

THE mission of the phonograph is to reproduce music just as it was originally rendered. It is not intended that it shall create tones or harmonies of its own. It is simply a medium for picturing, as vividly as possible, the tone-colors of all voices and all instruments.

The peculiar ability of the Aeolian-Vocalion to reproduce musical tones in their natural and original colors is the key to its superiority—a superiority clearly audible to every listener who possesses a musical ear.

Ever since its appearance on the market four years ago, the Vocalion has been recognized by musicians as having the power to render musical tones more clearly and in a more life-like manner than any phonograph. From the first it was possible for the Vocalion to obtain from phonograph records of various makes, tonal beauties that had never before been audible.

Style 620

IT was not until last year, however, when the Vocalion Record made its appearance, that phonograph music at its complete best was realized.

Then actually came reproductions of the human voice and of musical instruments that were unhampered by blast, stridency or surface noise; that in tonality, rhythm and harmonics were crystal clear and true to life.

The pains taken in the perfecting of all mechanical parts of the Vocalion—the ever-returning novelty and pleasure of being able to play the records by hand with the exclusive Graduola feature—the taste and skill displayed in case designing, and the high standing of the artists who are making Vocalion Records—all contribute their important share in the conspicuous popularity that has spread beyond every expectation; and has stretched the Vocalion output to its limits.

We invite you to call at our display rooms and hear for yourself—hear your favorite record played—as you have never before dreamed that it could be played—Hear the New Vocalion play all makes of disc records with the same reproducer, with the same needle—AND IMPOSSIBLE—as it may seem to you—without that terrible GRINDING, SCRATCHING NOISE so commonly heard on the ordinary Phonograph. The New Vocalion with its exclusive features, the Graduola Tone Control, the Improved Automatic Stop and the Insulated lid should appeal to you, if you want Phonograph Music at its Complete Best. Don't be misled. Hear the Vocalion and have its construction explained to you thoroughly before you buy a phonograph. It will be a half hour well spent, and we will be pleased to show you, whether you are ready to buy or not.

ASK US TO EXPLAIN OUR VOCALION XMAS SAVING PLAN—We sell them on terms that you can afford to own one. For the next ten days we will accept Liberty Bonds at their face value in payment on Vocalions for Xmas delivery.

FLASHES NEWS TO ALL SERVICE MEN

Navy and Y. M. C. A. Keep Soldiers, Sailors and Marines Informed on World's Series

SCORE SENT OVER THE WORLD

Chicago, Oct. 8.—The Navy Department and the National War Work Council of the Y. M. C. A. have been flashing by radio around the world the news of the World Series Games to every point where there are stationed men of the Navy and Marine Corps. The Army Y. M. C. A. picks up the naval radio and transmits them to every Red Triangle hut abroad now serving army men. Admiral Harry S. Knapp Commander of the United States Naval Forces in European waters, was directed by the Navy Department to release this special naval radio service to the Y. M. C. A. direct radio communication between Washington and London United States Naval Headquarters having been established daily, flashing the World Series scores inning by inning. From this point the returns are released to the Army and Navy Y. M. C. A. representatives for distribution wherever American enlisted men remain: in Germany, France, England and Scotland. Our Navy forces now in Mediterranean waters including ports in Greece and Asia Minor, receive this service in the Y. M. C. A. huts.

Cable instructions were sent from New York Headquarters of the Y. M. C. A. to its representatives abroad ordering the erection of baseball score bulletin boards in all Y. M. C. A. huts overseas.

The navy is flashing by radio the scores to all battleships on the high seas. Radio communication with Vladivostok likewise has been effected by the Y. M. C. A. with the co-operation of the Navy.

DRUG SLAVES ARE BEING TREATED

New York City For First Time in Its History Has a Daily Line of Drug Victims

REMARKABLE RESULTS SHOWN

Over 2,000 Persons Line up For "Drug Shots" and Their Dosage Decreased Daily

By W. R. HARGRAVES
(U. P. Staff Correspondent)

New York, Oct. 8.—Wizened youths, men and women cluster outside a long, rambling, corrugated iron building on one of the downtown side streets each morning. Their gaunt faces and staring eyes, however, are not caused by hunger for food.

They are hungry for drugs. Nervously twitching fingers, almost complete lack of physical repose in any muscle of their bodies bespeak their craving for some narcotic.

And their sufferings are being assuaged by the government of the City of New York. Through this relief the city is at the same time, and for the first time in municipal history, bringing the addicts back to normal condition and removing from among society a menace heretofore unchecked.

Most remarkable cures, according to leading physicians, are being effected at the clinic, through a simple reduction dosage. Nearly 2,000 are treated free each day. But day by day, since the institution was opened, the number is constantly diminishing, according to the attendants.

Some of the men and women had previously used as high as 25 grains of heroin a day, Dr. Royal R. Copeland, of the Health department said. Each day the dose is reduced a quarter of a grain until finally only two or three grains are required to give the addict relief.

When that period arrives, the patient is sent to a hospital when soon the drug is entirely eliminated from the dosage card and the reclaimed addict's physical and mental strength restored by tonics and nourishing food.

Many of the addicts have become slaves to the drug because of relief obtained by it during illness or serious injury. Others, are prosperous appearing actors, lawyers or other professional men who, perhaps, believed they must dull their ever-active nervous or mental energy to properly pursue their life-work. Still others are soldiers who have suffered shell shock or who were constantly under the influence of drugs in some European hospital after passing through the inferno of the battlefields.

The ends to which addicts would go to obtain drugs, denied them through recent laws, are unlimited, according to police officials and physicians. For this reason as well as for the reclamation of the unfortunates, the city has established the clinic which has won, not only the admiration of all directly associated with the addicts, but, in a great many cases, the undying gratitude of the men too weak to withstand the craving.

BUYS MACHINERY FOR LIGHT PLANT

Continued from Page One
Havens a permit to move two-story frame house from the property recently purchased by J. D. Case in Perkins street to First and Harrison streets. Supt. Mahin of the water and light plant appeared before the council and said that the house was so tall, that the main power and light wires for the business part of the city, would have to be moved, cut and spliced.

He said that his men were too busy to attend to the matter, and that it would cost several hundred dollars for the city to change the wires.
The council finally reached the conclusion that if Mr. Havens wished a permit to move his house, he would have to appear before the council and ask for it in the usual manner, which in this case would require a deposit bond of about \$2,000 and all costs to be paid by the owner of the building.

ENROLLMENT IS INCREASED

Western College at Oxford Has Students From Everywhere

Oxford, Ohio, Oct. 8.—Coming from 21 states of the Union and as far away as Canada and China, Western College for Women here has an enrollment of students this year which exceeds in numbers any previous enrollment in the history of the college. The students come from as far west as Wyoming, as far east as Massachusetts, as far south as Mississippi and as far north as Montana. More than half of the students are from Ohio and Indiana.

Amy Ellerman
and
The Fleming Sisters Trio
drawn from
actual photographs

Why Last Friday's audience at Main Street Christian Church was so completely mystified. Amy Ellerman and the Fleming Sisters were inside the phonograph in all excepting physical presences

At first reading, the story of the New Edison's performance last Friday night at the Main Street Christian church seems fraught with mystery.

But the explanation is simple enough.

First, get a picture of what happened. Miss Ellerman sang Cowles "Forgotten." She stopped after the first few lines, but her voice flowed on without a break. No one even noticed she had stopped—until some eyes, keener than the rest, saw her lips were still. It was only then that realization dawned. The audience found it had been listening to the New Edison.*

To every ear, the two voices, living and RE-CREATED, had been without a shade of difference. When the Fleming Sisters Trio made similar tests with their instrumental selections, the same result was obtained.

That was what so mystified the audience. They had expected the RE-CREATED art to betray its phonographic origin. It was a step too advanced for their comprehension that this instrument should be all that Miss Ellerman and the Fleming Sisters Trio are, excepting their physical presence.

The NEW EDISON

"The Phonograph with a Soul"

This extraordinary proof is the only means through which people learn to appreciate the true powers of the New Edison. If you are interested in music, it is indeed unfortunate that you were not present.

Yet, you know this is a test which no other phonograph dares to attempt. It is proof that no one can evade or deny. The New Edison* is the only phonograph which RE-CREATES music and the soul of music.

*The instrument used in last Friday's Tone-Test is the regular model which sells for \$285 (in Canada, \$431). It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.
